WORLD CLASS EDUCATION THAT INGRAINS THE ETHOS TO **BE MORE**

In today's rapidly evolving world, the pace of change is unprecedented, driven by advancements in technology, shifts in demographics, and global interconnectedness. These changes impact every aspect of our lives, from the way we work and communicate to how we access information and address global challenges. The ability to adapt to this evolving landscape has become more crucial than ever. What was once considered the basic requirement for success, such as a strong work ethic and technical proficiency, is now merely the starting point. Today's industry demands for a new breed of professionals – those who are not only skilled but also socially conscious, perceptive, and deeply motivated by a sense of purpose.

The Bachelor of Arts program at Woxsen University, aligns with the National Education Policy (NEP) 2020, which places a strong emphasis on promoting multidisciplinary education, critical thinking, and research-oriented learning. The program allows students to Tailor-Make their own degree by choosing 3 out of 8 diverse specialisations offered, facilitating their holistic development.

The innovative pedagogy employed within the program aims to instil in students the ability to effectively communicate, adaptability to thrive in a changing world, enabling them to lead, innovate, and make meaningful contributions to society and beyond.

STUDENT SPEAK

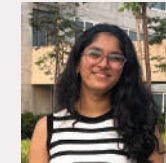

Nethra Easwar
Psychology & Journalism

It's been amazing being a part of this department, as well as the university in the larger picture. The courses and assignments given to us are always interdisciplinary in nature, a focal point in my opinion. The faculty is very easy to approach and have deep academic conversations with. The opportunities presented to us in terms of conferences and symposiums have helped me improve myself and grow professionally. The campus facilities, such as the sports facilities and the library, also compliment my day based on how I'm feeling.

Sujal Reddy
Political Science & Psychology

Woxsen has been an unexpected change of scenery for me and completely blew my expectations right from the get go. The facilities and course - majors and the interdisciplinary nature - were the first standout things during my time at campus, but what really convinced me were the faculty and my classmates. Beyond academics, the campus offered a rich tapestry of extracurricular activities, allowing me to explore my interests and develop leadership skills. I'm grateful for the opportunities and knowledge gained during my time here and looking forward to more such memories.

Vedehi Parashar
Journalism & Business Studies

Woxsen University has been one of the standout experiences for me. The faculty members surpass traditional methods, fostering creativity and pushing me out of my comfort zone to grab many opportunities like the Student Exchange Program. This holistic approach and cutting-edge education will shape my academic journey and endow me with a successful career.

Maria Keshwani
Journalism & Psychology

The diverse range of courses offered has allowed me to explore my interests and understanding of diverse fields. Our professors are not only experts in their fields but also extremely passionate about teaching. They are always ready to answer our questions. Woxsen has a world class infrastructure that fosters a dynamic learning environment. My favorite place at the university would be the massive library. I got many opportunities to interact and build connections with foreign faculties and delegates, improve my management and public speaking skills, and got the chance to go for the student exchange program. I am extremely grateful to Woxsen university for these opportunities.
