Master of Architecture

24 Months
Full-Time Residential Program

The Integrated Design Edge

A research-driven M.Arch built around an integrated learning pathway: advanced design and building systems from term one, moving through sustainability and urban analytics to an independently developed thesis.

Program Highlights

- ▶ **Research-Driven Design:** Combines advanced design studio with research methodology, building systems and computational design from Semester I
- ▶ **Sustainability & Performance Focus:** Semester II dedicated to environmental analysis, building performance and regenerative design, anchored by a 9-credit studio
- ▶ **Independent Thesis:** Semester IV anchored by a 12-credit M.Arch. Thesis Project, backed by advanced professional practice and a research seminar
