

ETHICS, RESPONSIBILITY & SUSTAINABILITY WING:

The James A. F. Stoner Sustainability Centre serves as the focal point of this wing. Within this centre, we house the ERS committee and the Sustainability Club.

The ERS committee comprises one member from each of the seven schools, totalling seven members in total. All of them collaborate closely with the ERS Project Officer.

The Sustainability Club is a student-led initiative with Pavana as the faculty mentor. This club will also establish a partnership with the Teach for India Organization, appointing students as ambassadors. Additionally, in their final years, some students will become Social Fellows.

Within the Sustainability Club, a Net Impact Chapter will be initiated, consisting of four students and an advisor (Pavana).

James A. F. Stoner Sustainability Centre:

1. Research and Development: Research publications, Newsletter
2. Education and Outreach: IR course – Sustainability in the 21st century & Certification courses like Sustainable leadership.
3. Collaboration: Partner with other organizations and institutions to promote sustainable practices. In talks with ABIS Global and Bologna Business School Centre for Sustainability and Climate change

James A. F. Stoner Sustainability Club:

1. Student Leadership: Empower students to take a leadership role in sustainability efforts.
2. Awareness and Advocacy: Raise awareness about environmental issues and advocate for sustainable solutions.
3. Project Implementation: Plan and execute sustainability projects and initiatives.
4. Collaboration: with Teach for India and many more NGOs

ERS Committee Members School Wise:

1. School Representation: Work on school-specific sustainability projects and programs.
SOB – SDGs 4, 7 & 8
SOT – SDGs 9, 12 & 14

- SOAD – SDGs 5 & 13
- SOAP – SDGs 2, 11 & 15
- SOH – SDGs 1 & 10
- SOL – SDGs 16 & 17
- SOS – SDGs 3, 6 & 7

- 2. Coordination: Coordinate with the ERS Project Officer to align school-level efforts with the overall sustainability goals.

Net Impact Chapter:

- 1. Social and Environmental Impact: Focus on creating positive social and environmental impact through projects and initiatives.
- 2. Networking: Connect with like-minded students and professionals to share ideas and resources.
- 3. Skill Development: Provide opportunities for members to develop leadership and sustainability-related skills.
- 4. Collaborate with regional professional chapters.
