

**Project Name:** Woxsen Metaverse Odyssey

**Venue:** Woxsen Campus

**Date:** 06/09/2023

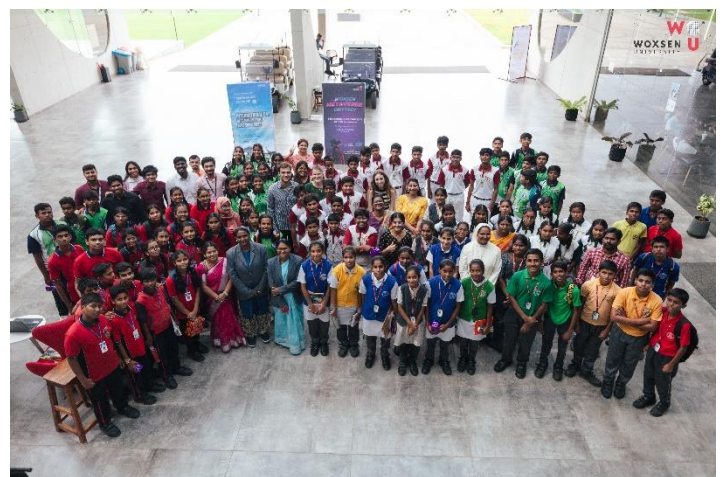

Woxsen Metaverse Odyssey, the virtual reality experience that takes the users into the world of Woxsen SDG city. This experience immerses the users into the world of futuristic sustainable environment created in Metaverse that aims to create awareness on United Nations Sustainable Development Goals (SDGs) where users can explore all 17 SDGs and learn about Woxsen University's dedicated efforts to support each goal. This project was created by AI research Lab under the guidance of Dr.Hemachandran and ERS wing at Woxsen university to create awareness on sustainability in metaverse platform.

Initially the experience was unveiled to school children. The school children got the spell bounding experience of Virtual reality where they were able to understand about the United Nations Sustainable Development Goals and Woxsen universities contribution to the UN SDG's. This created awareness for the future generation sustainability.

Nearly 100 students from St.Peters High School, Karuna High school, Sri Bashayam high school, St.Antonys School located at Sangareddy and Sadhasivpet participated in the Woxsen Metaverse Odyssey program.
