MESSAGE FROM THE VICE-CHANCELLOR

About US

Who we are is shaped by what we do. As soon as you are at Woxsen University's inviting campus, you will be taken away by beautiful Woxsen landscape, tall structures that define architectural excellence and the vibrant campus life. Established in 2014, Woxsen University has won prestigious CWAB Awards in 2017 under Institutional Building category.

With a strong belief in creating a highly invigorating knowledge platform that transcends traditional academic boundaries, Woxsen is built on the 4 core pillars of Academic Excellence, Applied Learning, Global Exposure, Diversity & Inclusivity.

In a very short period of time Woxsen University has registered itself among the established architecture schools in India for its unique blend of teaching methodologies and industry-ready students.

Through innate values and culture, Woxsen continues to stay relevant and meaningful for students and industry alike.

Won the prestigious CWAB 2017 Awards in Noteworthy Institutional Building Category.

Nominated NDTV - Design & Architecture Awards 2015-16 in the Architecture Awards - institutional.

WOXSEN'S B.Arch. Program Offers Great Learning Experience With Global Outlook

Arguably India's greatest Architect, Charles Correa reminded us on the importance of architects in nation building: Architecture is an agent of change...which is why a leader like Mahatma Gandhi is called the architect of the nation. Neither the engineer, nor the dentist, nor the historian. But the architect - one who is concerned with what might be.

From modernist marvels, to heavenly houses, to the finest building design it's architecture at play. The five-year B. Arch Program at Woxsen is accredited by Council of Architecture, India (COA) and is designed to change and impact society most meaningfully.

The degree program offers Total Learning Experience (TLE) to students through a unique ensemble of architectural pedagogy including classroom teaching, studio design, hands-on training and workshops, computing and three dimensional modelling, field visits to the treasure trove of architecture in the country, exposure to construction technologies, and learning from global leaders in sustainable architectural practice.

Is it right for me?

Sky is the limit for growth in this discipline. Architects design cities, high rise buildings, community and sports facilities, schools, hospitals, bridges, and of course homes for all.

Bachelor of Architecture degree program at Woxsen will equip you with the right skills to dive into this career of creative passion.

If you are any of these and more, then Woxsen's B.Arch is the right choice for you:

1. You have a passion for people & projects as much as for building and environment.
2. You want to develop your Knowledge, Skills & Ability (KSA) to design great structures.
3. You want to learn & possess 21st century Skills to build your career in Architectural firms & related companies.
4. You want to start your own enterprise to offer Architecture related services.

Eligibility

Passed in 12th or 10+2 scheme of examination with Physics, Chemistry & Mathematics subjects or pass in 10+3 Diploma with Mathematics; with English as a compulsory language, from a recognised board.

Accepted Entrance Test Score: NATA & JEE Mains II. (Candidates who have qualified in the aptitude test or JEE may also apply.)

Admission Process

The Admission process at Woxsen is quite structured and comprehensive since every student is evaluated basis their Composite Score, as mentioned below.

STEP 1: Submit Your NATA Test Score

STEP 2: Schedule and complete your Psychometric Test.

STEP 3: Tell us, who you are in the Personal Interview Round.

Woxsen's B.Arch Program

Woxsen University's five-year Bachelor of Architecture degree program offers Total Learning Experience (TLE) to students. Woxsen's unique pedagogy interweaves Academic Excellence and Global Exposure through its one-of-a-kind International Exchange program. Students are further made industry-ready through Interactions with Global Faculty and Industry Experts.

Woxsen's Bachelor of Architecture program will equip students with skills to build projects from scratch. From ideating to mapping, estimation & costing, surveying and overseeing a construction, project management and more, Woxsen's Bachelor of Architecture program is all you need to prepare for the future ahead.

Program Highlights

- International Student Exchange
- Skill Development Workshops
- Opportunity to participate in live projects / national & international design competitions
- Internships | Case Studies | Group Assignments | Capstone Project
- Opportunity to register for the Trade Tower

Get your business off the ground at the Woxsen Trade Tower

Woxsen Trade Tower is a co-operative working space that provides hands-on resources to the students to test and develop their ideas. Students will have access to unique resources where they will get an opportunity to practice the various stages of setting up a venture- from planning and designing to prototyping and funding.

ENTREPRENEURIAL MINDSET AND SKILL DEVELOPMENT

Woxsen Trade Tower is a unique concept that integrates resources for design, collaboration and mentorship from faculty and industry experts. The Trade Towers also allows students to interact with potential investors. Those ideas which gain the approval stand a chance to get seed-funded through the Woxsen Fund.

STAGE 01

Innovation Lab
Develop business ideas and prototype

STAGE 02

Business Analysis
Develop a reliable business model for your idea

STAGE 03

Business Advisory & Feedback
Refine plan with mentorship from functional experts and faculty

STAGE 04

Financial Analysis
Develop a complete business plan

Student Clubs

Woxsen School of Business is intense & challenging in its academic rigour, but dedicating time to develop personally & form lasting friendships enriches student life. 10+ Clubs not only facilitate professional and personal growth, but also improve student learning outcomes. From domain specific clubs to cultural, music & sports club, channelize diverse interests & talents through this platform.

Recreation

To encourage an active lifestyle, good health & abundant social opportunities among students, Woxsen houses a gamut of activities. From sports facilities, swimming pool to fitness & spa center, students can unwind, pursue their favourite sport, stay fit or pick a new interest!

Campus Infrastructure

Woxsen's ultra-modern campus sits on a sprawling 200 acre landscape. In a serene and pollution free environment, located in Hyderabad. Adorned with thoughtfully built Indoor & outdoor spaces, the campus has been designed by renowned architects specialized in educational architecture.

The award winning residential campus perfectly balances learning facilities, collaborative spaces and comfortable accommodation. Elaborate lecture halls, labs, AI & Robotics Studio and an extensive library foster effective learning. The dwelling space with fully-furnished hostels is strategically located, close to the cafeteria, swimming pool, multi-cuisine restaurant and the Fitness/spa center, it's just a 10 min walk from the academic building.

VICE-CHANCELLOR'S MESSAGE

Dear Student,

As we crawl into the second decade of the 21st century, many parts of the world are experiencing an economic change. It is crucial to understand and comprehend that architecture is a powerful visual and objective tool that influences the economy of a region.

Architecture is beyond artistic prudence. It is a fundamental part of a bigger system – an element of the process of economic development, technological progress and social change. It evokes unpredictable changes and processes, that only time could tell. In response to this reality, we at Woxsen University have created a faculty team which has a powerful mix of faculty equipped with knowledge of the most recent developments and several years of industry experience. Without exception all faculty members are premier school graduates.

Woxsen's learning experience is transformative. The combination of an elite architecture education with a super charged competitive environment found in top schools is the foundation of the Woxsen University learning ecosystem. Students pursue and discover their passions side by side with peers and professors in the classroom, fellow students in clubs and organizations, teammates on athletic - fields, and alumni mentors in the working world. Add in the drive, curiosity, and instinct to disrupt, that is inherent in our culture, the Woxsen experience stands apart.

With a rich legacy of transforming graduates into achievers, we have embarked on a mission to nurture raw minds who are looking to graduate in Architecture and Planning and give them a launch pad to accomplish their aspirations.
