

PLACEMENT REPORT

- 2020 -

The Management Programs at Woxsen University were crafted out of the need, to develop an outstanding cadre of leaders who will help make Indian industry globally competitive, by providing them an open and conducive environment for research and education, through an integrated system of mentoring and teaching by nationally and internationally distinguished faculty, practitioners and industry leaders.

Over the years, we have developed very strong ties with some of the globally renowned B-Schools like Nanyang Technological University, Singapore (QS World University Rank 11) and Mannheim Business School, Germany (FT Global Rank 27). Woxsen students undergo a capstone module - Global Immersion Program at once of these partner B-Schools, which helps the students to gain an appreciation towards global business challenges; understand the new business models & ways of working.

Today, Woxsenites have made a clear mark for themselves in the corporate world & are known for their astute leadership skills across private, public and the non-profit sectors. The diversity factor of 2020 Class was quite exceptional in terms of profiles, domains, demographics & sex ratio.

We thank all the corporates for their unwavering support & reposing their faith in our students. We had an exceptional year on the Placements front in terms of number of job offers and salaries offered and more importantly on the diverse kind of roles and responsibilities offered to our students.

We look forward to hosting you once again for the Class of 2021.

Best Regards,

Dr. Amit Bhadra

Vice Chancellor

Student Profile

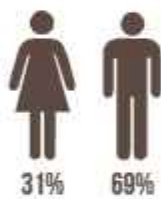

Woxsen University attracts the best talent from across the country. The PGDM Class of 2020 comprises of a diverse pool of students from varied backgrounds like Engineering, Commerce, Business management, Medical, Dental, Science, Arts, Defence, Computer Science etc. With 31% female students, the gender ratio continues to be one of the highest among the Top Rated B-Schools in the country.

In the flagship PGPXP Program, it is observed that more than 23% of the students come with 8+ years of work experience, while the average work experience for the overall batch stands at 5.6 years. The current batch comprises of more than 60% of Engineering Graduates and the rest hail from various other disciplines like Commerce, Manufacturing, Supply chain and Medicine to name a few.
