Conclusion

- Use a conclusion slide to:
 - Summarize the main points of your presentation
 - Suggest future avenues of research

Slide Structure

- Plan for **about** 1.5-2 minutes per slide in your presentation
- **Write in point form, not complete sentences, i.e., use key words and phrases**
- **Not everything needs to be presented: choose material to be put on slides**
- Slides should be un-cluttered and **use bullets where necessary**

- Use graphs rather than charts and words
- Data in graphs is easier to comprehend and retain than is raw data
- Trends are easier to visualize in graphical form
- Always title your graphs
