

MATERIAL EXPLORATION 2

B.DESIGN HONOURS
BATCH 2022-2026

MATERIAL EXPLORATION II

In this module, students had an hands-on experience that combines artistic creativity with a focus on recycling and sustainability. By incorporating these aspects, the module aimed to provide a holistic understanding of material manipulation while promoting sustainability.

The primary objective of this module was to explore and experiment with scrap metal and wood to create aesthetically pleasing artworks or products. However, a new emphasis is placed on incorporating recycled materials as much as possible. This approach encourages students to consider the environmental impact of their creations and fosters a mindset of resourcefulness.

Students gained an understanding of the importance of recycling and upcycling materials. They learned how to repurpose discarded items, giving them a new life and reducing waste. Furthermore, they explored the potential of using discarded materials and alternatives to traditional manufacturing processes.

Additionally, the module introduced students to the concept of sequential working methods. They learned how to develop prototypes and iterate their designs, considering both aesthetics and sustainability throughout the process.

By delving into the world of metal and wood, students gained a profound understanding of the visual, textural, and functional qualities that these materials possess. They explored the captivating interplay of light and shadow, the malleability and rigidity of various metals and woods, and the intricate textures and patterns that can be achieved through manipulation. Through the use of basic hand tools and simple machines, students mastered the techniques required to transform scrap metal and wooden blocks into captivating works of art.

EXHIBITION GALLERY

The exhibition of Material Exploration II course of the 2nd semester Foundation Dept, student at School of Art and Design. Organized by the students, the event took place on the Woxsen University premises, the 1st floor, admin block, Above Robotics Lab. The event was graced by the all the dignitary members of the University. The display of the explorations was a grand success, appreciated by the viewers, the platform gave students a lot of encouragement.

1

MULTIPURPOSE WOODEN REINDEER

Artist: Hansika Reddy

This was inspired from the reindeer statues in the campus. This wooden reindeer can be used in many ways. The body has a storage space to store different things, let it be skincare, makeup, stationary and also it can be used to store small plants for a decorative purpose, the horns of reindeer can be used to hang chains or keep rings. The tail can be used to hang rubber bands and scrunchies.

SPECIFICATIONS

Color : Pale yellow
Material : Pine wood
Finish : Polished
Durability: 2 years
Target : 499

CYCLE FLOWER POT

Artist: Mokshitha

A wooden cycle flower pot is a decorative item that resembles a miniature bicycle, with a flower pot integrated into the design. Typically, the frame of the bicycle is made of wood, and the flower pot is mounted on the back of the bike. The pot and is often filled with flowers or other plants. Wooden cycle flower pots can be used as a unique and attractive decoration for homes, gardens, patios, or other outdoor spaces.

SPECIFICATIONS

Color : Wooden brown
Material used : Pine wood
Finish : Polished wood
Durability: 2 years
Target : 499/-

3

RING-DING

Artist: Kanika K

The speaker and microphone of RING-DING were made of steel and the other parts were of iron. The rotary dial pad- round part with the numbers, is a random wheel with eight holes on them instead of ten. And the part where it stands on is a motor. I used steel door locks which perfectly looked like speaker and microphone. A iron chain added a beautiful finishing to the telephone.

SPECIFICATIONS

Appearance: Rustic Metallic

Material: Iron and Steel

Usability: Decorative

Durability: 6-7Years

Weight: 7-8Kg

Target Cost: INR 1999

RUST FIRE

Artist: Rahul Vinod Kumar

The Rust fire is a heavy gun-shaped sculpture made from rusted and repurposed scrap metal. Although it doesn't shoot bullets, it adds an industrial touch to any space and is a perfect accessory for cosplays. Its weight adds to its authenticity and makes it an impressive decorative piece.

SPECIFICATIONS

Colour: rust metal

Performance: It is a decorative piece

Target cost: ₹1,700

Manufacturing: Hand made

5

SWEET HOME

Artist: Vaishnavi Sarayu

A key-holder that gives a warm and welcoming feeling to those returning home, and also conveys the message that home is always here and waiting for their return. While designing the key-holder, some imperfections were intentionally left on the houses to give them an old and fantasy-like appearance.

SPECIFICATIONS

Colour: Pale yellow-brown

Material: Pine wood, Iron nail, Fevicol, Wall mounters

Finish: Wood varnish

Durability: 5-7 years

Target cost: Rs. 500

Dimensions: 13x10 inch

SHELL B

Artist: Amrita J.

The Rust fire is a heavy gun-shaped sculpture made from rusted and repurposed scrap metal. Although it doesn't shoot bullets, it adds an industrial touch to any space and is a perfect accessory for cosplays. Its weight adds to its authenticity and makes it an impressive decorative piece.

SPECIFICATIONS

9

VIVANTÉ

Artist: Dedeepya Nalluri

Vivanté is an unconventional wall frame made out of pine wood and bamboo. The concept behind this product is to incorporate a vase and a photoframe. The name 'Vivanté' is borrowed from the french language and it translates to 'alive' or 'full of life'. This is a live photoframe in which worn out flowers can be replaced everyday. No more boring photo frames for decoration!

SPECIFICATIONS

Color : Yellow-ish beige
Material: Bamboo and pine.
Finish: Varnish coat.
Performance: Excellent.
Durability: 5-7 Years.
Target Cost: INR 350.

DHUPA GANDHA

Artist: Dedeepya Nalluri

Made with the delicate touch of hand, 'Dhupa Gandha' is an incense stick holder and a Puja Room essential. Made out of pure pine wood, it has a beautiful glossy finish. Additionally, it has a storage desk which can hold up to 20 agar-battis. It is highly durable, fire resistant and can be handled with ease. This product is a must have on any occasion to diffuse the divine fragrance of the incense stick.

SPECIFICATIONS

Appearance: Glossy, yellowish beige.

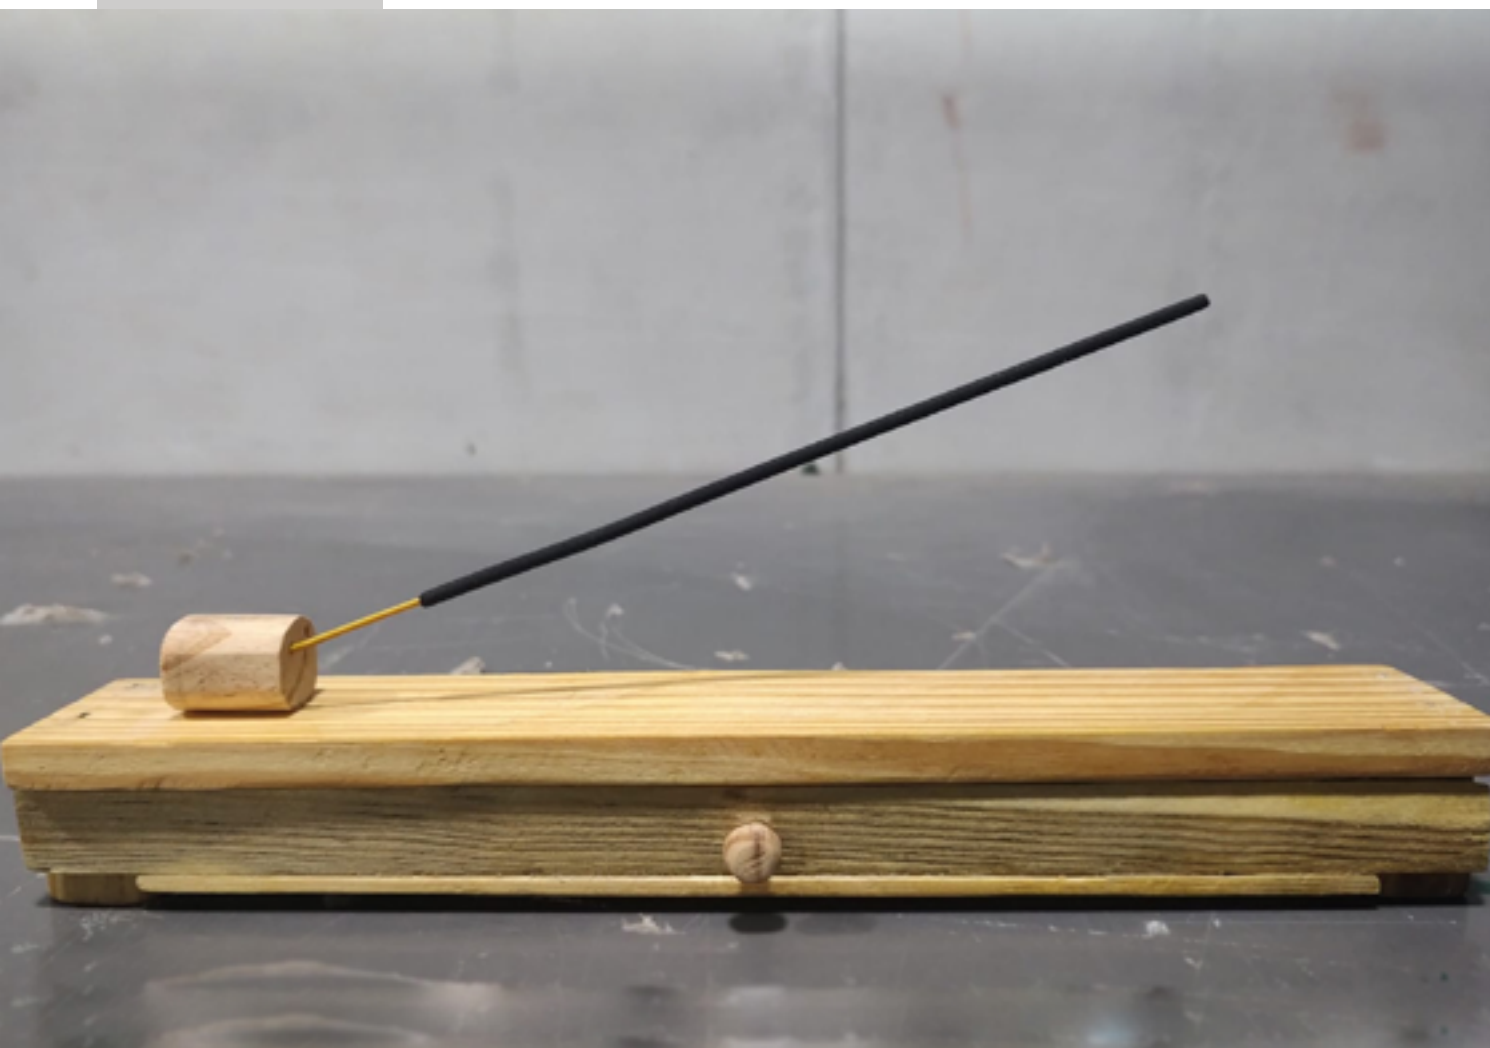

Material: Pine wood.

Usability: Religious purpose.

Durability: 8-10 Years.

Weight: 300 grams.

Target Cost: INR 599.

11

METAL SOUPIECE

Artist: Niharika Singhania

The metal scrap soupiece depicts a couple holding hands. The art piece may evoke emotions of love, commitment, and unity. The rough edges and imperfect shapes of the metal scraps give the artwork a unique character and raw appeal. This piece could serve as a reminder of the beauty that can be created from discarded materials and the power of connection between individuals. It could also inspire creative reuse and repurposing of waste materials.

SPECIFICATIONS

Color : Yellow-ish beige
Material: Bamboo and pine.
Finish: Varnish coat.
Performance: Excellent.
Durability: 5-7 Years.
Target Cost: INR 350.

IRONHAWK

Artist: Sremanth M

This is a fighter plane. The main intention was to create an abstract piece of a fighter plane made out of scrap metal. This can also be used as a decorative piece. This showpiece has a painted stand made of scrap metal. Scrap like pipes, rods, Ball bearings, nut and bolts are welded together to make the form the fighter plane. Edges were then grinded to take out extra bumps to make it smooth.

SPECIFICATIONS

Color: Rustic scrap metal with painted base

Durability: Depends on surrounding

Target audience: Anybody other than kids

Material: Iron rod, Iron Pipes, Gears,

Ball bearing, Metal sheets, Nuts & Bolts

Performance: 10 Years

13

JEWELLERY HOLDER

Artist: Yohitha jureddy

The product made was a chains holder and rings holder . Made out of pine wood and it is environmental friendly. Light weight wooden stand is perfect for trade shows, businesses, storefront displays, professional and casual use, for presenting and displaying your favorite necklaces or chains. This jewellery holder holds 8 necklaces. Each necklace can be displayed at the chosen height using 2 different height pegs on the back of the board.

SPECIFICATIONS

Usability: organise jewellery .

Durability: 6-7 Years.

Target Cost: INR 600.

Manufacturing: Hyd, India.

RETRO PHONE STAND

Artist: Deepali S M

Phone stands are small objects used to prop up your mobile device. They are designed to sit on a hard surface, like a table or desk, so you can watch videos, scroll through pics etc. I made the phone stand inspired by retro tv. A stand can keep you organized and gives your hands a break.

SPECIFICATIONS

Colour: wood colour

Material: pine wood

Finish: polished

Performance: phone stand

Durability: 5 years

Target cost: 799

15

JIAN JIA

Artist: Gíríshaa

Jiān jiā is an artwork inspired by the Chinese armor costume, the Spaulder which is worn in the movie The Great Wall by Jing Tian, the actress in the movie. This artwork is made of 3 different, which is aluminum mesh sheet, then two hole iron pipe holder, and lastly rusted iron sheets. More than ideation the measuring part was tough because I thought of making an artwork that can be worn.

SPECIFICATIONS

Appearance: Rustic Metallic
Material: Iron, Steel, and Bronze
Usability: Decorative
Durability: 6-8 Years
Weight: 6 Kg
Target Cost: INR 750

METAL SCRAP SCORPION

Artist: Muskan Gogia

Scorpion one of the poisonous creatures on earth They have eight legs, and are easily recognized by a pair of grasping pincers.. Using metal scraps like the exhaust of a bike to make the body, iron rods to make the legs and tail, brakes of a cycle to make the antlers and other scraps to complete the animal. Using the techniques of welding, cutting, bending of metals etc.

SPECIFICATIONS

Colour : Rusty metal

Durability: depends on usage and maintenance

Target audience: decor lovers and art collector.

Material: Iron, steel and other scraps

Manufacturing: Handmade at Woxsen University

17

PHONE HOLDER

Artist: Anjaly vege

The product I have designed for this module is a multiple purpose organizer which acts as a mobile holder, Nightstand organizer, watch key holder and a desk table organizer for office or study table desk. This product is a multiple purpose stand with the best quality wood. Being made from pure wood, this product is eco-friendly. This product can also be positioned as a multiple purpose organizer in the market. This product is easy to use and is hands-free.

Durability: 2years

Target : children and shoots

Material:pine wood

Target cost : 500-600

Manufacturing: Woxsen University

19

THE PANOPLY

Artist: Poshitha Rajeswari Allu

The focus goes on the exaggerated breast coned plates which symbolise protection, dignity and motherhood. The Panoply is made to honour the great powerful women in respect to their bodies. The women's body is not made to create distractions, it's not provocative or sex appealingly made for the pleasures of men. Women are way more than the size of their breast, they are not showpieces welcoming every touch just cause one finds them appealing.

SPECIFICATIONS

Color: silver, reddish brown, grey

Material: iron, stainless steel.

Target cost: ₹200

Manufacturing: welding and cutting, hand bent and hammered.

OCTABLE

Artist: Vinay Datta

This is an octopus table. The main intention was to create an abstract piece of an octopus with metal scrap. But this can also be used as a product as an acrylic glass is placed on top of it with the support of the octopus tentacles. The head of the octopus is made up of motor engine parts. The tentacles are made with an iron rod and a chain is put under the rod to for the suction tubes through welding.

SPECIFICATIONS

Colour: Rustic scrap metal color & acrylic sheet

Durability: Depends on surrounding

Target audience: Anybody other than kids

Performance: Years

Manufacturing: Handmade

Material: Iron rod, cycle chains,

21

FLYING BIRD MOBILE

Artist: Harrish Sakthi A

This wooden flying bird mobile is an interactive toy/ porch/garden hanging. It'll flap it's wings if the thread down is pulled. This makes a space more ambient and enhance the look of it. This also helps in relaxing and reducing the stress. Also acts as a toy for toddlers!

SPECIFICATIONS

Bird Size: 24 x 12 x 2 inches

Mobile Size: 22 inches

Material: Made of pine Wood

Cost: 999/-

MORKSY BOOKENDS

Artist: Harrish Sakthi A

The Morsky wooden bookends are a stunning addition to any bookshelf or workspace. Inspired by the intricate beauty of seahorses, the wooden design showcases the natural beauty of the material, while the seahorse inspired shape adds a touch of whimsy and Wonrien bookends have potential market for commetallica the home decor and stallonary histries. These bookends are both fumtional and decorative.

SPECIFICATIONS

Colour Natural wood color
Material Pine wood
Finish: Polished
Performance Year
Target Cost:899

23

BODY BUILDER

Artist: Reshmii Sivanandam

The materials used in this work are all metal scrap, where discarded metal pieces are transformed into unique and creative artworks. The process of creating art from metal scrap involves several steps, including collecting the scrap, cleaning it, and then using various techniques to shape, weld, and combine the pieces. I used all the bolts and screws to create this piece of work.

SPECIFICATIONS

Color : Rusty metal
Durability: 4-5 years
Target audience: kids and teens
Materials : screws and bolts
Performance : attractive
Manufacturing: handmade

WALL HANGING

Artist: Simhadri Gowri

This wall hanging is made up with iron and when I have seen some iron rods I have got an idea to make this wall hanging and it is used as showcase in your cupboards and it gets different and beautiful look to the people who visits your house.

SPECIFICATIONS

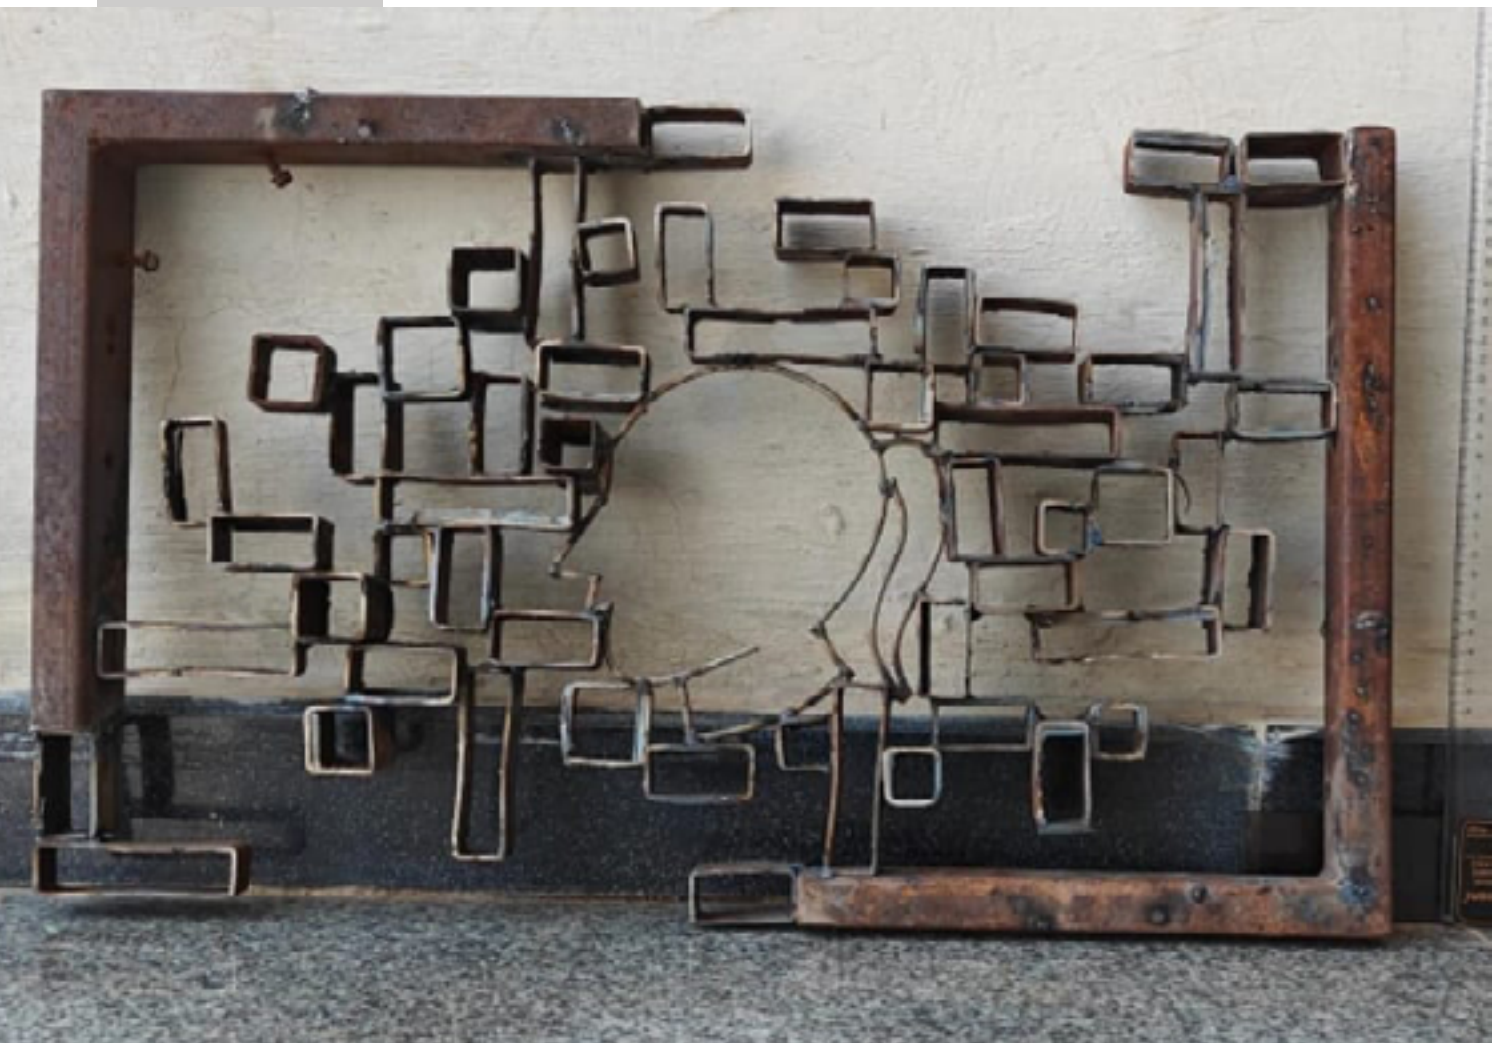

Color :Natural rested metal

Performance : strong

Target cost : 1500Rs.

Durability : 5 years.

Manufacturing: Handmade

25

SHADOW

Artist: Kuringi V S

Shadow is a lamp with aesthetics and functionality that gives your place a touch of playfulness. It is portable, compact, and also adjustable so that it can be changed according to your needs. Dogs are some of the few animals that have an emotional connection to humans, as they give a sense of comfort. The infamous balloon dog was my inspiration for the product.

SPECIFICATIONS

Color: cream brown

Material: pine wood

Finish: Shine varnish

Performance: Easy to use, compact, and comfortable

Durability: 3-4 yrs

Target cost: 700

UDDOSAUNDO

Artist: Priyanshu Dutta

Uddosaundo is a wooden passive speaker that amplifies sound without the help of electricity. The sound bounces around the bottom, expanding and growing channeling to a single path. This product is sustainable and although it won't give results as good as an electric speaker but produces results enough not to promote noise pollution. Passive speakers work like sound sandwiches, blocking the inlet and forcing the sound to move through a path connected to the outlet letting the sound amplify.

SPECIFICATIONS

Colour: Light Brown

Material: Pine wood

Finish: Varnish

Performance: Sound Amplifier

Durability: 3- 4 years

Target Cost: Rs 800/-

27

LADY WITH THE GUITAR

Artist: Priyanshu Dutta

This is an abstract piece which is a woman with a guitar. Inspired by Pablo Picasso's, 'A Woman with Guitar' portraying the beauty with music. The piece has an amalgamation of various colors with different shapes representing the Cubism style. It was made from metal scrap and the materials used were bi-cycle handle, steel pipe, horse shoe, iron pipe, etc.

SPECIFICATIONS

Color: Rusted iron color

Durability: Heavy and strong

Material: Iron and steel

Performance: 5-6 years

Manufacturing: Handmade

ODONATA

Artist: Kurinji VS

I wanted to achieve a rustic and vintage look to make it look like an antique rather than a fresh one. The arranged metals formed the dragonfly's body, so I decided to cut down the wings for the dragonfly. I sketched the wings shape on the metal sheet using chalk and cut it down with a machine then attached all the pieces by welding them together.

SPECIFICATIONS

Color: Rusty metal
Durability: Lifetime if handled with care
Target customer: Adults and children
Materials: metal sheet, motor parts
Performance: years
Manufacturing: Machine Cutting

27

STATIONARY HOLDER

Artist: Reshmī Sivanandam

To carry stationary items like pens, pencils, erasers, paper clips, and other similar office or school supplies, a stationary holder is a container or gadget. These holders can be made of plastic, metal, wood, cloth, or any number of other forms, sizes, and materials. Some stationary holders are designed to be decorative as well as functional, featuring interesting shapes, colors, and designs. Others may be more simple and utilitarian in nature.

SPECIFICATIONS

Colour: Wood brown

Material: Pine wood

Finish: Polished Wood

Performance: Good and easy to use

Durability: 3 years

Target cost: 800/-

CORNER SHELF

Artist: Muskan Gogia

The product created is a miniature of a side corner utility shelf. Shelves are generally used to organise homes and get give it an aesthetic view which is why it is used to place decor items in modern days. This shelf has three tiers and easily accessible. It has been designed in such a way, to give it an abstract look yet keeping the design that of a shelf intact.

SPECIFICATIONS

Color : Natural wood

Material: Pine wood

Finish : Sanded smooth wood finish

Target cost: 350/

29

BODY CHAIN SKIRT

Artist: Deepali SM

A body chain skirt is a type of garment that combines the elements of a body chain and a skirt. It typically features a chain or series of chains that wrap around the waist, hips, and thighs, creating a skirt-like effect. It can be worn as a standalone piece or layered over other clothing items. To make it, I used few metal scrap rings and few keychain rings with some chains.

SPECIFICATIONS

Colour: silver

Material: metal rings and chains

Performance: body chain skirt

Durability: 2-3 years

Target cost: 999

METAL BIKE

Artist: Yohita Jureddy

Hand crafted metal motorbike miniature sculptures, Unique, Stylish, Eye catching, Made out of nuts, bolts, cycle chain ,metal sheets, spring and small iron rods. All parts of the sculptures are welded / soldered, making each of them very well built. This is used as show piece . Used the techniques of welding, cutting, bending of metals etc.

SPECIFICATIONS

Appearance: Rustic Metallic.

Material: Iron and Steel.

Usability: Decorative

Durability: 5 -6 years

Target Cost: INR 300

31

SPECSTER

Artist: Girishaa

Specster is an additional element on your desk or nightstand that serves as both a display piece and a stand for glass or specs. It gives your desk an aesthetic look, as this product is neither lacquered nor covered with polish, giving it a natural feel. The main idea of the product was to operate as a glass stand. But it will be so simple if it's just specs stand so I thought of adding something interesting like a Hamster figure to the specs stand.

SPECIFICATIONS

Color of the Product: Creamy yellow

Material: Pine Wood

Finish: Finished with wood varnish

Performance: Stable, Comfortable.

Durability: Minimum 2 yrs

Target Cost: Rs.300

TOILET ROLLS

Artist: Yohita Jureddy

Presenting toilet rolls securely in a wall mounted dispenser helps to provide a hygienic and pleasant solution for your visitors but it also helps keep the roll free from potential cross-contamination. Not just conned to holding what their names suggests, there are many other uses for free standing toilet paper holders, including as magazine racks, phone shelves, and general storage.

SPECIFICATIONS

Colour: Creamy , yellow colour to the sapwood

Material: Pine wood

Finish: Polishing

Durability: 5-6 year

Target Cost: 550

33

SCOOBI DOOBI SEA HORSE

Artist: Amrita J.

We were given iron scraps to create our scrap sculpture. This is a sea horse made out of iron which can be used as a showcase.

SPECIFICATIONS

Appearance: Rustic Metallic
Material: Iron, Steel and Bronze

Weight: 1.5Kg
Target Cost: INR: 250

FLOWER VINTAGE

Artist: Yashasvi N

I have taken some iron sheets and cut them into a drop shape and folded them back and forth to make the petal look realistic. The durability of metal flowers makes them ideal for outdoor use, as they can withstand harsh weather conditions and retain their beauty for years. In addition, the metallic surface of these flowers can create interesting reflections and shadows, adding depth and dimension to any space.

SPECIFICATIONS

Appearance: Glossy, yellowish beige.

Material: Pine wood.

Usability: Religious purpose.

Durability: 8-10 Years.

Weight: 300 grams.

Target Cost: INR 599.

35

KEY HOLDER

Artist: Niharika Singhania

About product :A guitar shaped key holder made from wood is a functional and decorative accessory that can add a touch of personality to a home or music-themed room. The key holder is typically made from durable hardwood, such as maple or walnut, and features a guitar design with multiple hooks for holding keys. The key holder can be easily mounted on a wall and is a great gift for music lovers or guitar enthusiasts.

SPECIFICATIONS

Colour :wood brown

Material:pine wood

Finish : polished wood

Performance:Good

Durability:3yr/Medium durability

Target cost: Rs 399

TOKI PAPERS

Artist: Kanika K

TOKI is developed from the words 'TOILET' and 'KITCHEN'. 'TO' from toilet and 'KI' from kitchen. Basically it is a tissue paper which has dual use. It can be either used as kitchen paper or toilet paper. TOKI papers are bigger than toilet papers and smaller than kitchen papers in terms of dimension, so that people can use them for both toilet and kitchen.

SPECIFICATIONS

Colour :wood brown
Material:pine wood (polished)
Performance:Good/comfortable
Durability:3yr/Medium durability
Target cost: Rs 699

37

EL FRÍO

Artist: Vaishnavi Sarayu

The name I chose for my product is "El Frio", which translates to "The Cold" in Spanish. This is because the product resembles a reindeer, an animal typically found in colder regions. Additionally, the name is a nod to the ivory-like appearance of the reindeer, which was achieved through specific crafting methods which includes use of heat and high voltage. I decided to create a wall decoration resembling a reindeer; not entirely realistic but rather an abstract.

SPECIFICATIONS

Colour: IRON RUST

Material: IRON , HARD PLASTIC

Finish: Rusted retro iron shine

Performance: Adds vintage look to your walls

Durability: 10 year

Target Cost: Rs. 700

HUMAN LAMP

Artist: Varsha

This product is made of the metal scrap which serves the purpose of a lamp. The bulb in the product can be replaced after it's functional period. This runs on electricity. The angle can be adjusted according to the requirement.

SPECIFICATIONS

TOY TRAIN

Artist: Manjari Srikanth

The toy train is an inspiration from my childhood toys. All the pieces are cut into proper shape. All are shaped and sanded by hand. The toy train can move on a flat surface. The wheels are connected through a wooden rod that was carved. I then stuck everything together using fevicol and for placing the rod I used the rest of the wood shavings to get a better grip.

SPECIFICATIONS

Colour : Natural wood

Durability: Depends on the side of the individual
